Safe Travel

When students return home during the breaks using any of the airlines, we strongly encourage parents with children under the age of 15 to use the Unaccompanied Minor (UM) service provided by the airlines. This costs you nothing but gives you some assurance that your child will be escorted to you safely. Residential staff take your children to the airport and make sure they are safely through to customs and immigration, but after that they

are on their own. We collect them from the arrivals area once they have cleared customs and immigration. If you do not wish to use the Unaccompanied Minor service we would ask you to complete a release of liability form.

Living in Harmony with Nature at APIS

Surrounded by nature, our campus offers not just a place to study, but a chance to live in kindness and harmony with wildlife.

On Wednesday, April 23, we welcomed the Lanna Wildbird Rescue and Rehabilitation to our main campus for a special release of an owl found misplaced on campus.

Our residential students had the unique opportunity to learn about nocturnal birds like owls and how to care for them when they fall from their nests. A heartfelt thank you to the dedicated volunteers for sharing their expertise and showing us how to safely return these amazing creatures to the wild.
