6 – Residential – Painting
13 – Residential – Painting
20 – Residential – Wildflower & Golf
22 – Teacher PD Day – No School
Residential – Ceramics

Dear Parents and Students

This year has really started off well with all students, new and returning, settling in quickly. The renovations that took place over the break have really given a lift to the program and modernized the whole place.

Living in a community differs from living at home as students need to learn to be considerate of others, their property and time. It is pleasing to see that already a high level of trust and communication is in place in the house. Any time you have any concerns, questions or praise please contact me.
