- Junior Track & Field Meet (TBD)

January 28

- Senior Cross Country Meet (Hosted by APIS)

January 31

- International Fair 2026

PRINCIPAL'S MESSAGE

Hello Main Campus Families,

Happy Friday! Somehow, we have just one more week left in Semester 1. For me, it feels like I only just arrived here in Thailand and at APIS – the semester has truly flown by! I am incredibly proud of everything we have accomplished over the last five months, and I am excited for what's to come.

The past month has been very busy, and next week is shaping up to be another packed week! We are thrilled to announce our first Winter Wellness Week, with activities and fun planned for both students and staff. This is definitely a week your children will not want to miss!

Have a wonderful weekend, and we will see you on Monday for the final week before break.

Regards,

Mr. Jordan

PSG MEETING ON THE WINTER BREAK TOOLKIT

Thank you, everyone, for joining our second Parent Group Meeting on December 11. Following the joyful Winter Concert, we discussed practical strategies for supporting children's learning, well-being, and independence throughout the holiday break, along with ideas for fostering meaningful family connections. We truly appreciated your thoughtful questions, active participation, and commitment to partnering with us in your child's growth. If you were unable to attend, you may access all materials and information through the link below.

FATHER'S DAY EXHIBITION

Students, teachers, and staff from Main Campus joined together on Thursday, December 4, to participate in this year's Father's Day event in honor of the late King Bhumibol Adulyadej. The ceremony began with a tray offering led by our Head of School and Assistant School Director. Following this, we introduced a series of exhibitions and activities organized by MYP Thai LA and Thai L&L students. In addition, we hosted a special vegetable market featuring products from local farmers. This meaningful event not only commemorated the day but also helped support and uplift our local community.

G8 NAMO WON THE POETRY SLAM

On Saturday, 6 December, Namo in Grade 8 represented our school at the first-ever Youth Poetry Slam Competition in Chiang Mai. The event took place at the vibrant 360 Art Center, where students, families, and community members explored interactive art exhibitions and listened to powerful slam poetry on topics such as youth mental health, climate change, and cultural identity.

Namo delivered an outstanding performance. His poem was thoughtfully written, confidently presented, and resonated deeply with both the judges and the audience. We are incredibly proud to share that he received first place in the competition!

Please join us in congratulating Namo for his exceptional achievement, his courage on stage, and the meaningful message he shared through his poetry. What a fantastic accomplishment—well done, Namo!

PYP HUMAN GROWTH AND DEVELOPMENT

All PYP and English Academy students took part in a meaningful two-day Human Growth & Development experience from December 8-9. They explored wellness, healthy relationships, and self-care while strengthening friendships and supporting one another through light physical challenges. We are incredibly proud of their courage, kindness, and thoughtful reflections.

WINTER CONCERT

Our Main Campus hosted the Winter Concert Music Showcase on Thursday, December 11. PYP & MYP Students showcased their instrument skills with pride, sharing music with friends & family. They have demonstrated how much they've learned and the teamwork they've built. Our students showed growth as courageous learners performing on new instruments at the winter concert.

MYP THAI LA STUDENTS BUILD AND FLY THAI KITES

In this unit on Holidays and Travel in Thailand, students from MYP Thai Language B in Grades 9 and 10 explored the cultural significance of Thai kites. Beyond being a sport and a leisure activity, kites hold an important place in Thai traditions. Thailand hosts traditional kite competitions, especially in the southern region, with one well-known event taking place in Satun Province during the first week of February each year.

Students learned about the history, regional styles, and cultural value of Thai kites, connecting this knowledge to travel experiences and holiday traditions in Thailand. They also assembled their own kites and ran to test them on a lovely, chilly day.

WINTER WELLNESS WEEK

For the last week of Semester 1, from December 15-19, an enthusiastic group of teachers has planned an awesome week of school spirit and fun! Each advisory period, on Monday, Tuesday, Wednesday, and Thursday, will be filled with a variety of wellness activities that you may participate in, focusing on physical, mental, social, and emotional areas. Student Council will also be involved in sponsoring dress-up days. There will be no charges!
