Dear Parents and Students

This will be the last residential newsletter for this school year and the last residential newsletter from me. I would like to thank all the parents over the years who have shared their children with us in residential. Being able to be a part of molding a young persons life is a daunting task but also a privilege position for us. Your support, not just of your children, but also the staff has been much appreciated. Remember that the children's first teacher and lifelong teacher is you the parents. I wish you all well for the future.

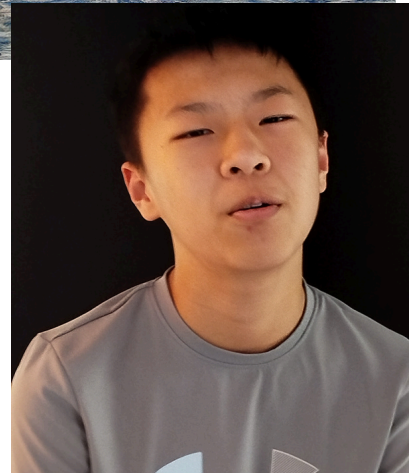

Mr. Clive
