WORLD CHILDREN'S DAY – EARLY YEARS PLAY DAY

To celebrate World Children's Day on Friday, November 20th, our Early Years students enjoyed a special day of learning through play across the playground and classrooms. By rotating through various activity corners, students practiced sharing, problem-solving, and creative exploration. All of which are key building blocks of early childhood development. Be sure to ask your child after school about the games they played and what made their morning fun. Happy World Children's Day!

GRADE 2 GOES GLOBAL:
CONNECTING WITH SOUTH KOREA

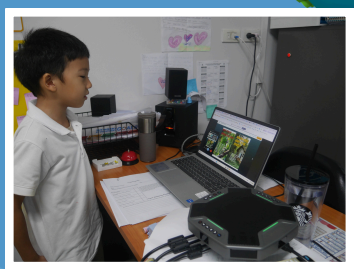

On November 19, APISP second graders participated in Earthrise: Live, a global event connecting classrooms in more than 70 countries. Our students met virtually with a Grade 2 class in South Korea to learn about their country and weather unit and share a little about life at APIS.

As part of Where We Are in Place and Time, students shared digital books they created about different geographical features and how these affect the way people live and adapt to their surroundings.

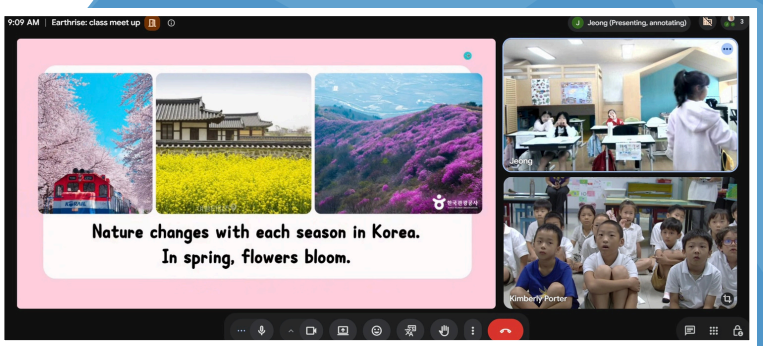

During the video call, students shared ideas, asked questions, and listened to each other. It was an exciting opportunity to practice being communicators and open-minded learners while discovering what our communities have in common and what makes them unique.
